The city treasury is in a good condition according to the statement of City Treasurer J. F. Colby and there is plenty of money on hand. The statement was made out on November 14 and gives the balance on hand in each fund.

The general revenue fund had a balance of $2,985.23 and with this year's taxes being collected now, they will have plenty of money. There are only two funds overdrawn and they are the street fund, which is $166.80 overdrawn, and the pay roll fund, which is $263.16 to the bad.

The following is the balance on hand in each fund.

Paving sinking fund $905.76.
Sewer interest fund $15.24.
Sewer sinking fund $216.92.

ABOUT THE MARKET.

The Weekly Stock Letter From Collins, Hutton & Young, and What They Say.

The following is the weekly stock letter from Collins, Hutton & Young and what they have to say of the market, the letter being dated November 21:

The cattle market this week has been one of discouragement to both shippers and feeders. Declines show anywhere from 25 to 50 cents. The discouraging outlook, with tight money, together with an advancing corn market, is responsible for premature liquidation, but somewhere or other the long slump will strike bottom.

Receipts are running less now that last year, and we expect a greater shortage to show as the season advances. From best information available at this time, Kansas will not feed more than 20 per cent of the usual crop, Missouri 40 per cent, Nebraska 50 per cent and Iowa 75 per cent, a total for the four states of 46¼ per cent, and should help conditions, after another two or three months.

Hogs—7,500 hogs showed up today. Market 5c lower; top, $7.90; bulk, $7.55 to $7.75. Quality coming better and prices show about same as a week ago, except pigs, 25c to 50c lower. Conditions favor a steady market the coming week, and better conditions for December, based on amount of hogs available in this territory.

Our estimate for Kansas hogs, 33 per cent of a crop, Missouri 75 per cent, Nebraska 70 per cent, Iowa 90 per cent; total in the four states 67 per cent. Eastern territory may hold a full crop, but they are not in this locality.

SPEECH IS 50 YEARS OLD.

Lincoln's Memorable Address on Gettysburg Battlefield Half Century Old.

Fifty years ago Wednesday, November 19, 1863, Abraham Lincoln delivered his memorable address on the battlefield of Gettysburg. Edward Everett delivered the big address of the day, Lincoln being on the program because he was president, more than for any other reason.

Everett spent days in preparation for this event. Lincoln wrote his address on wrapping paper while he was on his way to Gettysburg. Everett's address was greeted with unanimous applause; when Lincoln finished his short sermon there was not a sound from the thousands of visitors at the battlefield that day.

Today Lincoln's Gettysburg address is regarded as one of the masterpieces of the English language. There is scarcely an adult who has not at least read it. But it would be hard to find one who is familiar with the address of Mr. Everett.

It was just fifty years ago Wednesday afternoon at 4 o'clock that there leaped from the soul of this great American this lofty sentiment, which in form and thought constitutes one of our greatest literary and moral treasures.

In Illinois, the state superintendent of public instruction, Francis G. Blair, has recommended that all school children above the sixth grade memorize this address. All of the schools have adopted the recommendation.

SPELLING BEE WAS GREAT.

Pickering Turned Out Well and Furnished Over 100 Spellers for the Contest—O. G. Null Champion.

The spelling contest given at the school house Friday evening by the Mothers' club of Pickering was well attended. Ten cents admission was charged for all over 12 years old, and the proceeds amounted to $16.

Mr. and Mrs. O. G. Null stood their ground until the last, and so long did they stand together in spelling that quiet wagers were being made as to half—at spelling we mean, of course—when Mrs. Null tripped on the word "calendar," but was ready to correct herself almost instantly. This made Mr. Null the champion speller of Pickering.

The captains were Charles Swinford and O. G. Null, and they "chose up" in the good old-fashioned way.

Mr. Swinford proved himself a good speller until the word "sonata" was presented. Then a terrible, thundering discord broke over his mind as sudden and awful as the battle of Waterloo, and down he went on the beautiful word, which in itself is suggestive of a great concord of sweet sounds.

The pronouncers were Miss Manly of the Mowrey school and Miss Rachel Watson.

A good social time followed and pie and coffe were served by the Mothers' Circle. Another spelling contest is being talked of.

A SPECIAL SERVICE

DR. FOOTE TO TALK TO FATHERS AND SONS SUNDAY.

TO BE IN AFTERNOON

Regular Services at Other Churches—Efforts Being Made for Large Sunday School Classes.

Last night Dr. U. G. Foote of Louisville, Ky., preached on "The Facts of Conversion." All the seats in the auditorium were occupied except those directly in front. The pastor, Rev. J. D. Randolph, requested the members of the church and others who arrive early to take the front seats so those coming in later might be seated with the least possible disturbance to the service. A special service for fathers and sons was announced to be held at 3 o'clock Sunday afternoon. Where possible fathers were asked to come in company with their sons, but any son or any father is invited whether coming together or not. All other services will be held at the usual hours. Dr. Foote will preach.

The sermon on "The Facts of Conversion" was in part as follows::

"Whatever may be our theological views, the fact that man is wrong is a stubborn truth. We are all wrong and must be righted about. There are men who believe they are going to the heavenly land who have neither repented of past sins nor believed on the Savior for salvation. Conversion means giving up sin. 'Let him that stole steal no more.' It means taking up a new line of conduct. Conversion means getting a start for righteousness in the same sence that a child is getting a start to be a man. A 'babe in Christ' is not expected to be a grown up man in experience. A child is not expected to read Gibbon's Rome or Macbeth. A child cannot understand higher mathematics. Like the engine we accumulate steam as we go. Don't wait until you get enough to run through, but start with daily bread, and after awhile you will have enough to divide with others."

MAITLAND MEN HAVE GAS WELL.

D. A. Gelvin and E. Rowlett Have Struck a Rich Find on Their Land in Oklahoma.

The following is from this week's Maitland Herald:

D. A. Gelvin and E. Rowlett returned Tuesday from Nowata, Okla., where they had gone to see the "coming in" of the first well on a 120-acre tract of land which they had recently leased on the oil fields of that section. Their land joins a 120-acre tract owned by John F. Shipley of Mound City and M. C. Brumbaugh, and with these men and Uncle George Wagner, making 370 acres under the control of these five men, and it is said by experts from the eastern fields who were there the first of the week that these holdings are in the richest part of the northern Oklahoma fields, which are a combination of gas and oil.

The Gelvin-Rowlett well is producing gas and they were on the ground at the climax, when the gas came rushing out of the 400-foot hole with a roar that was almost deafening. We are told that Mr. Rowlett was so elated over the remarkable success of the well that he danced the tango and the turkey trot at the same time.

Mr. Shipley is managing the development of these three tracts and the drills are now working night and day. He was in town a few hours today consulting with the other interested parties. He was called home from Oklahoma on account of the death of his brother-in-law, Charles Arnold, whose funeral was held Wednesday.

An enormous amount of wealth is certain to be derived from these holdings, and we hope a little later to be able to give more definite information.

Corn Husking Bee.

Talk about your "husking bees," there was one in the Skidmore neighborhood Wednesday. A number of the citizens of the town and community, headed by Jim Newton, Paddy Iddings, Henry Barrett and John Trapp, met in W. S. Hickman's field, one mile south of Skidmore, and shucked and cribbed about 750 bushels of corn, measured at a low estimate 731. Mr. Hickman has been quite poorly for some time and his friends thought they would be doing a "neighborly" act by pitching in and helping him get his corn out before it snows, and eleven teams and thirty men, armed with husking pegs, marched through about thirty acres and succeeded in pulling it in the dry. Those present were Jim Newton, Henry Barrett, Robert Barrett, John Trapp, Jim Parrish, Jr., Lewis Wood, Robert Merritt, Jr., Harry Worl, Frank Jones, Lannie Horn, Claude Shull, Jake Dawson, Clyde Mitchell, Myron Newton, Dempsey Hickerson, Floyd Shell, Carl Stevenson, Marvin Hitchcock, Harley Hitchcock, Chancy Littler, Willard Money, Fred Hurst, Dan Baker, Aaron Linville, Howard Manning, Paddy Iddings, J. R. Gibbs, J. E. Strickler, W. M. Howden and Arch Hitchcock—Skidmore New Era.

HATS OFF LADIES!

ED WELLS STARTS MOTION FOR NEW RULING.

BACK ROW IN DEMAND

Order at Presbyterian Church Has Caused a Drop in Temperature in That Vicinity.

According to the best advices weather conditions in certain sections of the city will be unsettled during the next twenty-four hours. A storm area has been discovered forming in the neighborhood of the Presbyterian church, and it is certain that there will be a period of freezing temperature for a lot of men folks.

The cause of this somewhat violent disturbance may be traced to the following innocent announcement to be found in this week's church bulletin: "Beginning with next Sunday's morning service, the ladies will be expected to remove their hats." There is more to the announcement but this is sufficient. The Men's club is charged with the responsibility, and the number of those who will admit that they attended the last meeting of the club is growing less every hour.

Right here at the height of the millinery season and every lady is expected to hold her new hat in her hands or stick it under the seat. Just think of it. And the married men are laying it all on Ed Wells, a popular bachelor member, who is said to have made the motion that brought it all about and carried it unanimously because the husbands were afraid to vote either way. Anyway he is better off than the husbands because while he has been consigned to eternal bachelorhood on account of this, he has no wife to lose or to settle with.

There is a kindly suggestion in the announcement that "the back row of the pews can be used by ladies who do not feel that they can dispense with their millinery." This has caused a rush of advance orders for back seats, and the men who are wise will quietly take their places down in front, where a mourners' bench will be provided.

THE CURRENCY SITUATION.

The situation with reference to currency legislation is rapidly clearing up. The banking and currency committee of the senate has decided to bring its labors to a close and report the house bill to the senate with two distinct sets of amendments. One is backed by six of the seven Democrats on the committee and the other by the Five Republicans and Senator Hitchcock of Nebraska.

The amendments recommended by the Democratic members, it is said, are mostly acceptable to the administration, and the differences of opinion in the committee have been adjusted agreeably. This will be pleasing to all good Democrats, though disappointing to Republican politicians and those who sought to turn the efforts of certain Democratic senators to improve the bill to their discredit.

The bill involves radical changes in the present currency system. It proposes a number of new departures, all intended to prevent in future great evils which have fallen upon our country in the past and to secure certain relief from evils such as we have had in the past and that may again return.

It is a bill of vast importance to the country and one that is expected to be of vast benefit, but the more important a bill the more reason for care and deliberation in its construction and passage. Senator Reed has drawn upon himself some severe criticism for seeking light and urging some amendments which he thought advisable. In a recent speech in the senate he said:

"In dealing with questions of that kind men must understand that he who leaps without first ascertaining where he may alight is not proceeding with proper regard for the gravity of the matters involved. So this committee has been endeavoring to gain light and to arrive, if possible, at a common agreement."

This common agreement, it seems, has been reached so far as the six Democratic members are concerned.

In endeavoring to throw the searchlight upon the bill and expose its defects, if any, and remedy them by amendment, Senator Reed was simply doing his duty as a member of the committee to which it was referred fo examination and report. To have avoided or shirked this duty would have been to have shirked the obligations resting upon a United States senator.

But, when he had secured such amendments as he could and was outvoted on others, he showed himself the good Democrat that he has always been by deferring to the judgment of his fellow members on the committee and falling in line and helping to make a unanimous report to the senate on the part of the six members who stood nearest together. There will be many divergent views held by individuals upon different features of the bill when it comes up for discussion on the floor of the senate, but the friends of the bill, which will include all the Democrats, with the possible exception of Senator Hitchcock, and several Republicans, will rally to its support and pass it.

It will probably not have suffered by the rigid treatment it has undergone, and when it becomes a law the people will be glad to know that it has stood the acid test and that it was not put through by dark lantern methods such as have merited the loss of confidence in former administrations.

Mrs. W. A. Rickenbrode returned Thursday night from a several days' visit with relatives in Kansas City and Olathe, Kan.

Played "A Telegram From Dad."

The social committee of the Young People's club of the First Presbyterian church gave the members of the club a delightful evening at the home of Mrs. Gallatin Craig. Fifty members were present. Upon their arrival they were ushered to seats in the west parlor, which had been arranged after the style of seats in the opera house by the committee of the evening, Misses Edna Dietz, Juno Jones, Mary Lewis and Clara Neff, Floyd Cottrill, Phil Colbert and Mrs. Craig. When the guests were seated they were given programs which announced a one-act college play entitled "A Telegram From Dad," with the following cast of characters: Billy Burnham, Pete Waters and Harry Slyn, seniors, who were represented by Phil Colbert, Harley Hughes and Goff Crawford; James E. Rush, a football coach, Fred W. Vandersloot; Charles Augustus Livermore, chief of police, Philip Parcher; messenger boy, Forest Hutchison; Mrs. James E. Rush, Miss Laura Craig. The play was staged in a really stock manner in the east parlor. Mrs. G. H. Colbert was stage manager and had drilled the players of the evening, and the whole affair passed off in a most creditable manner. After the play the remainder of the evening was spent in playing games, and luncheon was served.

Party in Holmes Heights.

A gay company of young people were entertained Friday evening at the home of Mr. and Mrs. G. B. Holmes, in Holmes Heights, their daughter, Miss Lucile Holmes, and three of her friends, Miss Irene Westfall, Miss Marie Hopper and Miss Mildred Wamsley, being the hostesses. The guests were received by Miss Holmes and directed upstairs by Miss Hopper, where they were given tally cards for the games at progressive dominoes by Miss Westfall. The decorations were principally in evergreens and suggestive of Thanksgiving. Punch was served in the dining room before the games began, Miss Wamsley presiding, assisted by Miss Louise Rowlett. The punch bowl was in a pretty setting of red poppies and evergreens. The hostesses were very pretty in gowns of pink. Miss Holmes' gown was of hand embroidered pink chiffon over pink satin, with trimmings of satin bands; Miss Hopper's a pink brocaded silk, with trimmings of jet and lace; Miss Westfall's a dainty pink silk mull trimmed in cream lace; Miss Wamsley's of pink and blue charmuse satin, trimmed in bands of pink. Progressive dominoes were played at seven tables, the first prize, a box of chocolates going to Miss Olivette Godsey, and the consolation prize, a book of the story of Tom Thumb, went to Will Hutchison. After the games a luncheon of sandwiches, chicken salad on lettuce, pickles, cake and cocoa was served. The napkins and table covers contained emblems of Thanksgiving. The remainder of the evening was spent with music, the entire company singing several school songs, and an impromptu program of the following numbers: Reading, "Just the Giant Killer," Miss Amy Clark; piano, "Humoresk," Miss Meriem Holt; vocal, "Peg o' My Heart," Paul Thompson; vocal, "Star of My Heart," G. B. Holmes, Jr.; vocal, "That Old Girl of Mine," Marcia Roxanna Cutler; vocal, "When the Twilight Comes to Kiss the Rose Good-Night" and "A Rose From the Garden of Giris," Miss Brownie Helply. The happy evening came to a close when all gathered on the porch while Fred Thompson took a flash light picture, which included Misses Amy Clark, Blanche Gray, Pauline Woodward, Marcie Cutler, Mary Sewell, Vijune Colden, May Mahoney, Josephine Wilderman, Meriem Holt, Olivette Godsey, Marie Bond, Vella Booth, Mary Lewis, Mildred Young, Brownie Helply, Louise Rowlett, Helen Burris, Messrs. FEDERATION FAVORS PEACE

Refuses, However, to Take Stand Against Armed Intervention.

GOMPERS DENOUNCES HUERTA

Points Out Importance of Maintaining Monroe Doctrine—John Mitchell Appeals to Convention Not to Hamper President Wilson.

Seattle, Nov. 22.—The American Federation of Labor refused to adopt a resolution condemning armed intervention in Mexico, on the ground that such intervention might be justifiable and desirable.

The convention unanimously adopted the following resolution:

"The American Federation of Labor condemns attempts being made by American and foreign corporations and certain jingo newspapers to force armed intervention by the United States government in Mexico and urges upon the president of the United States the continuance of a policy looking to the peaceful adjustment of the conflict among the Mexican people, and that the president and secretary of the American Federation of Labor be instructed to transmit the position of the federation upon that matter to the president of the United States."

John Mitchell took the floor and begged the convention not to hamper President Wilson. While he was a peace advocate, he believed there were conditions that sometimes justified war within a nation and between nations.

Mr. Gompers eulogized President Madero, denounced General Huerta as an assassin and pointed out the importance of maintaining the Monroe doctrine.

Position of Huerta.

Mexico City, Nov. 22.—Most of the happenings here continue to indicate that Huerta is unalterably determined not to accede to the demands of the United States government for his elimination as president of Mexico. However, there is some basis for the belief that he will given in, but in such a manner as to leave the impression of his own free will, defying Washington to the last.

On Way to Havana.

Vera Cruz, Nov. 22.—Evaristo and Daniel Madero and the other members of their party, who took refuge in the American consulate and were placed on board the United States battleship Rhode Island, were transferred to the scout cruiser Chester, which sailed under orders to proceed to Havana.

M'GUIRE MURPHY'S PARTNER

Agent for Contractors Associated With Chief's Nephew.

New York, Nov. 22.—George H. McGuire, the Syracuse bonding agent for state highway and barge canal contractors, is a partner of Charles F. Murphy, Jr., nephew of the leader of Tammany Hall. He so testified at the "John Doe inquiry" into highway graft and said he had an agreement with Murphy to divide all the bonding business they obtained.

McGuire confessed to having attempted to force at least three asphalt companies to make $5,000 contributions to the state Democratic committee in return for securing them contracts from the state highway department. McGuire was to receive a commission of 1 cent a gallon for all the asphalt the companies sold to the state or to contractors, he said, and the companies were to charge the contributions against the commission.

Will Rebuild Tabernacle in Tokyo.

Chicago, Nov. 22.—On the information that 85 per cent of the 6,000 students of the Imperial university, Tokyo, Japan, have relinquished paganism only to become agnostics, alumni of the divinity school of the University of Chicago announced they will rebuild the Central Baptist tabernacle at Tokyo, destroyed by fire last spring, to check the tide of agnosticism.

Jewett Says Baby Died in Hotel.

Blair, Neb., Nov. 22.—George S. Jewett, accused of the murder of his infant child, took the witness stand in the district court and told his story of the death of the baby. Jewett indicated that the child died a natural death while lying on a bed in the room he occupied in the Paxton hotel on the night before the alleged trip to Arlington.

Insurance Officials Examine Foresters.

Chicago, Nov. 22.—Insurance authorities of Illinois, Wisconsin and Nebraska, who have been examining reports of the actuarial and legal questions involved in the operation in the United States of the Independent Order of Foresters of Toronto, Canada, concluded their conference and expect to make a report in a week.

Banker Convicted of Land Fraud.

Fergus Falls, Minn., Nov. 22.—M. J. Kolb, a banker of Ogema, Minn., and J. R. Perrault were convicted by a jury in the federal court for conspiracy in attempting to induce government officials to fraudulently issue patents to Indian lands. The trial has been in progress for several days.

LAXATIVE FOR OLD PEOPLE—"CASCARETS"

Salts, Calomel and Pills Act on Liver and Bowels Like Pepper Acts in Nostrils—Danger!

Get a 10-cent box now.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets, and they cost only 10 cents per box at any drug store. They work while you sleep.—Advertisement.

DRIVES AUTO INTO CROWD ON STREET

Four Persons Injured, One Fatally, at Omaha.

Omaha, Nov. 22.—Speeding across Farnam on Fifteenth street at an hour when hundreds of persons were waiting for street cars to take them home after their day's work, James Svoytek, chauffeur for the Omaha Taxi company, lost control of his car when he struck a messenger boy and crashed into a crowd, seriously injuring three other persons and knocking down several more.

The injured: Miss Mollie Falctman of Council Bluffs; in St. Joseph's hospital and will probably die; jaw broken in three places, skull fractured, painful lacerations and internal injuries.

John J. Mahoney, former police court clerk; serious lacerations and bruises and internal injuries.

Albert Redman, messenger boy; in St. Joseph's hospital, suffering from concussion of the brain, bruises and serious lacerations.

Peter Boland left leg badly cut and bruised, head lacerated and internal injuries.

Svoytek is under arrest.

EGGS TOO COSTLY FOR GIFTS

Burleson Says No Scrupulous Official Will Accept Such Valuable Presents.

Washington, Nov. 22.—Postmaster General Burleson has reached the conclusion that no scrupulous official can accept gifts of eggs at their present soaring prices.

For months he has been receiving presents of various kinds of edibles which the donors wish to demonstrate may be transported successfully by the new parcel post. Recently he received a box of eggs from Michigan.

"Send 'em back," Mr. Burleson ordered. "To accept an egg at its present market price without payment therefor is immoral and a violation of the law prohibiting a public officer from accepting anything of value outside of his salary. No scrupulous official could tolerate such a suggestion."

Search for Body of Man in Sewer.

Atlantic City, Nov. 22.—A hundred men searched for the body of Edgely Bowers, twenty-one years old, who was drawn into the covered drainage canal that parallels the western side of the city from the inlet to Chelsea. Long after he was drawn into the big conduit Bowers' cries were heard and men in boats risked their lives by entering the canal in the hope of reaching him alive. After an all-night search hope was given up that he would be saved. Bowers fell overboard at the intake of the canal and was swept into it by the rising tide.

Mail Cars Kill Many Pedestrians.

New York, Nov. 22.—The right of the government to operate its mail trucks in city streets regardless of speed restrictions that may be prescribed by the board of aldermen, was defended by Joseph Stewart, second assistant postmaster general, before the aldermanic committee appointed to consider an ordinance withdrawing the mail trucks from the class of vehicles now exempt from speed control. Fourteen persons have been killed here this year by mail carrying automobiles.

Robs Bank and Locks Cashier In Vault

Laurel, Miss., Nov. 22.—Unobserved, except by his victim, a robber entered the Bank of Heidelberg at Heidelberg, Miss., shortly before noon, held the cashier up at a pistol point, got about $2,000, locked the cashier in a vault and escaped on a freight train that was passing. THREE OFFICERS ARE SHOT DOWN

Mexican Slayer of Countryman Kills Trio Resisting Arrest.

NOW HIDING IN UTAH HILLS.

Chief of Police Grant of Bingham and Two Deputy Sheriffs Slain Pursuing Murderer, Whom They Track in the Snow.

Salt Lake, Nov. 22.—Chief of Police Grant of Bingham and Deputy Sheriffs Otto Whitbeck and Nephi Jensen were killed in a battle with Ralph Lopez a Mexican, near Saratoga Springs, Utah. Lopez is wanted in Bingham for the murder of a countryman there.

After slaying the three officers, Lopez fled to the hills, where he is being searched for, with the prospects of another fight if he is overtaken.

The murder for which Lopez is wanted was committed near the Highland Boy mine at Bingham, when he shot and killed John Valdez.

Immediately after the murder Lopez, armed with a rifle, left the mining camp, with a posse following a short time later. The posse was able to track him in the snow and the fugitive was located hiding in a clump of bushes near Saratoga Springs, about forty miles south of this city.

Deputy Sheriff Whitbeck called upon him to surrender and was arrested by a bullet, which killed him. Lopez then turned his gun on Chief Grant, killing him. Deputy Jensen, the third member of the posse, received a wound while trying to defend his comrades, from which he died soon after aid reached him.

Following the shooting of the officers Lopez resumed his flight. Several automobile loads of police officers and deputy sheriffs left Salt Lake to take up the hunt for Lopez.

NORRIS INTRODUCES BILL

Wants Poor Straphanger Given Ride for Half Fare.

Washington, Nov. 22.—"Straphangers" in street cars in the District of Columbia are cheering Senator Norris of Nebraska, who introduced a bill in the senate providing that any one entering a car and not being able to find a seat should be given a rebate check. Two of the checks, in the terms of the bill, would be legal tender for one fare.

"I've hung on straps myself and I know what it is," said Senator Norris, in declaring his intention of forcing his proposed measure. "It is a well known fact that the street car corporation makes three times as much on the man who stands in the aisle as on the woman who occupies a seat. That being so, it is only fair that the person who stands, be it man or woman, should be carried for at least one-half the price of the person accommodated with a seat. The proposed law imposes no penalty; it is pure justice."

The senator believes that if the law should be enacted the street car companies would be more careful to see that seats were provided for all patrons.

SAYS MATRON BEST TEACHER

Present Educational System Puts Premium on Celibacy.

Kansas City, Nov. 22.—Matrons make the best teachers for the young, according to Professor Earl Barnes, who lectured before the Missouri university extension center here.

"The present day educational system puts a premium on the greatest sin in the world, celibacy," said Professor Barnes.

"Particularly is it wrong to insist that only unmarried women be allowed to teach in public schools.

"What better teachers could be found for children than the cultured married woman coming from a congenial home into the school room?

"No greater insult ever was given to American womanhood than the act of the New York school board of education in asking the resignation of a married teacher, who had requested leave of absence that she might become a mother."

Descendant of John Alden Dead.

Kansas City, Nov. 22.—Judge Henry Leroy Alden of the Wyandotte county district court, a lineal descendant of John and Priscilla Alden, whose romance was sung by Longfellow in the "Courtship of Miles Standish," died at the age of sixty-six years. Judge Alden represented the eighth generation of the Alden family in America.

Says She Paid for Protection.

St. Paul, Nov. 22.—A scandal involving former officials of the St. Paul police department is threatened. A woman prominent in the underworld is alleged to have confessed to Judge Hanft that she had paid intermediaries $1,000 for "protection." The woman was taken before the grand jury.

Seer's Prediction Causes Suicide.

Kansas City, Nov. 22.—The prediction of a fortune teller that the young man she was soon to marry would drink and be unfaithful, making her married life unhappy, caused Agnes Fairbanks, twenty years old, to commit suicide at the home of her fiance in Kansas City, Kan.

Mixed Characteristics Presented in Week's News.

New York, Nov. 22.—Bradstreet's says: Mixed characteristics are presented in the week's trade news. Thus unseasonably mild weather has hampered retail trade over a wide area, conservatism as regards future buying is in evidence, the iron and steel trades continue to reflect a slowing down movement, money for time accommodation is rather tight and collections seem to be harder to make.

On the other hand, activity in holiday trade has tended to close up some of the gaps caused by mild weather, winter wheat is in fine shape over a record area, railway traffic is being conducted with relative ease, farmers appear to be prosperous and country banks report a rather heavy demand for loans.

Failures for the week were 340.

Wheat exports for the week aggregate 6,149,023 bushels.

Sea Monsters.

That "thresher shark" of fabulous dimensions just caught on the south coast of England is fast becoming a formidable rival of the sea serpent and the big gooseberry. He is fairly common during summer around Cornwall, where he does great damage to pilchard and mackerel nets, in which he completely finds himself, like a caterpillar in his chrysalis. The thresher shark is also called the sea fox, from the remarkable tail, which he uses to frighten shoals of fish, and so make them more easily caught. There are sailors' yarns that this whiplike tail is sometimes used for flogging whales to death. But the real persecutor of the whale is the gladiator dolphin or sword grampus (Delphinus gladiator), a very carnivorous fellow, who kills and eats whales, seals and even his brother porpoises.

BROOKLYN TABERNACLE BIBLE STUDY ON

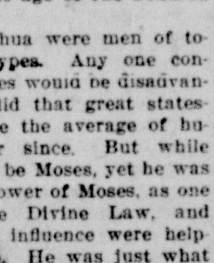
ISRAEL UNDER A NEW LEADER.

Joshua 1:1-9—Nov. 23.

"Be strong and of a good courage."—Verse 9.

ISRAEL spent thirty days in mourning for their great leader Moses, yet with one accord accepted Joshua as their new leader by Divine appointment through Moses. Like other Bible heroes, Joshua was renowned for his faith and his loyalty to God. At the time of taking Moses' place he was in his eighty-third year, yet full of vigor and evidently the best qualified for the position.

The fact that Moses was vigorous at one hundred and twenty, and Joshua at eighty-three, speaks loudly to us in confirmation of the Bible teaching that Adam was created perfect; and that the entire race has since fallen into sin and death—sharing Adam's penalty, "Dying, thou shalt die." The intelligence of these men, as well as their vigor, quite contradict the Evolution theory; for this very Joshua had been one of the slaves in Egypt.



Evolution Theory Contradicted.

Israel's Real Leader—God.

Not for a moment are we to lose sight of the fact that God had adopted the nation of Israel and had entered into a special Covenant with them; and that, therefore, He was their real Leader, Moses, Joshua and others being merely His representatives. We have already referred to the reasons for the adoption of Israel by the Almighty.

The New Leader's Name.

Joshua's name was originally Hoshea, the same as that of the Prophet Hosea, signifying salvation. To this was prefixed (Numbers 13:16) *Je*, an abbreviation representing the word Jehovah. Thus the name became Jehoshua, signifying Jehovah's salvation. This was shortened to Joshua. The Greek form of this word is *Jesous*—Jesus.

For twenty-seven years Joshua was the leader of Israel, faithful to God and to the people. He not only led the people through Jordan and directed in the conquest of Canaan, but divided the land amongst the tribes and governed the people with great acceptance, dying at the age of one hundred and ten years.

Moses and Joshua were men of totally different types. Any one contrasted with Moses would be disadvantaged, so high did that great statesman tower above the average of humanity, then or since. But while Joshua could not be Moses, yet he was faithful as a follower of Moses, as one who obeyed the Divine Law, and whose faith and influence were helpful to the people. He was just what God wished him to be, and whoever is worthy of such a testimony is truly great.

The Land of Promise.

That Joshua and Israel should take forcible possession of Canaan is called in question by some. They ask, By what right might one branch of the human family destroy another and seize their land? Where is the justice of such a course?

There is but one answer to this query; and, rightly seen, it is satisfactory. The Lord declares that the earth is His, that He gave it to the children of men, as represented by Adam. (Psalm 115:16.) But the gift was conditioned upon obedience and loyalty—disobedience, disloyalty, being punishable by death. Adam incurred this penalty; and his children, under the laws of heredity, shared it with him, because "born in sin and shapen in iniquity." Thus all human right in the earth was abrogated by the death sentence upon the sinner.

God purposed in Himself the recovery of Adam and his family from the curse of death—through Messiah, through His death and by the power of His Messianic Kingdom, not yet established. In preparation for these blessings to come, God laid hold upon Israel and made a Covenant with them. Although they could not fulfill the terms of the Covenant and obtain God's choicest blessing, nevertheless they were greatly blessed by their Law Covenant, and many of them were prepared by it for cooperation with Messiah in His Kingdom in due time.

False Theories of the Dark Ages.

In carrying out this arrangement, God gave Israel Palestine, but explained that this gift was because of His favor toward them in pursuit of His own great plans, previously outlined to Abraham. He further explained that the Canaanites were not making progress, and that their continuance would be neither for their good nor for His glory—as it was with the Sodomites.—Ezekiel 16:49, 50.

We should remember that the Bible hell, to which the slaughtered Canaanites went, is not the hell of torment pictured in the creeds. Their destruction by Israel sent them to Sheol, Hades, the tomb. There they sleep with their forefathers, waiting for the glorious resurrection Morning, when Messiah's Kingdom will eventually bring back every man in his own order. From this viewpoint, the giving of Palestine to Israel was not injustice, but wisdom.

PLENTY OF MONEY

CITY TREASURY IN GOOD CONDITION, STATES J. F. COLBY.

TWO FUNDS OVERDRAWN

All the Rest Show Good Surplus—Appointment of Dr. F. Wallis Was Also Confirmed.

The city treasury is in a good condition according to the statement of City Treasurer J. F. Colby and there is plenty of money on hand. The statement was made out on November 14 and gives the balance on hand in each fund.

The general revenue fund had a balance of $2,985.23 and with this year's taxes being collected now, they will have plenty of money. There are only two funds overdrawn and they are the street fund, which is $166.80 overdrawn, and the pay roll fund, which is $263.16 to the bad.

The following is the balance on hand in each fund.

General revenue fund $2,985.23.
Paving interest fund $36.66.
Paving sinking fund $905.76.
Sewer interest fund $15.24.
Sewer sinking fund $216.92.
Lateral sewer fund $865.29.
Library fund $44.18.
Road and righway fund $30.06.
Street fund (in red) $166.80.
Water bond fund $26,959.90.
Stree worker guarantee fund $200.
Water works operating fund $2206.31.
Water works bond interest fund $567.44.
Water bond sinking fund $44.25.
Dam construction fund $159.76.
Pay roll fund (in red) $263.16.
Total amount is $34,804.07.

A meeting of the city council was held Friday evening and two ordinances adopted. One was to make all sewer connections at $20 per connection and the other was ordering that all latreal sewers be built by the city.

The appointment of Dr. Frank Wallis as city physician was confirmed by the council.

The final payment on the water tower of $2,800 and a freight bill of $109.50 on the water pumps were ordered paid by the council.

The council at their next meeting night in December was adopt an????? ordinance that all lead pipe connections with the mains will have to be under the pavement.

ABOUT THE MARKET.

The Weekly Stock Letter From Collins, Hutton & Young, and What They Say.

The following is the weekly stock letter from Collins, Hutton & Young and what they have to say of the market, the letter being dated November 21:

The cattle market this week has been one of discouragement to both shippers and feeders. Declines show anywhere from 25 to 50 cents. The discouraging outlook, with tight money, together with an advancing corn market, is responsible for premature liquidation, but somewhere or other the long slump will strike bottom.

Receipts are running less now that last year, and we expect a greater shortage to show as the season advances. From best information available at this time, Kansas will not feed more than 20 per cent of the usual crop, Missouri 40 per cent, Nebraska 50 per cent and Iowa 75 per cent, a total for the four states of 46¼ per cent, and should help conditions, after another two or three months.

Hogs—7,500 hogs showed up today. Market 5c lower; top, $7.90; bulk, $7.55 to $7.75. Quality coming better and prices show about same as a week ago, except pigs, 25c to 50c lower. Conditions favor a steady market the coming week, and better conditions for December, based on amount of hogs available in this territory.

Our estimate for Kansas hogs, 33 per cent of a crop, Missouri 75 per cent, Nebraska 70 per cent, Iowa 90 per cent; total in the four states 67 per cent. Eastern territory may hold a full crop, but they are not in this locality.

Went to See Granddaughter.

Mr. and Mrs. James Tobin went to Burlington Junction Thursday evening to see their granddaughter born that day to Mr. and Mrs. John E. Tobin.

SPEECH IS 50 YEARS OLD.

Lincoln's Memorable Address on Gettysburg Battlefield Half Century Old.

Fifty years ago Wednesday, November 19, 1863, Abraham Lincoln delivered his memorable address on the battlefield of Gettysburg. Edward Everett delivered the big address of the day, Lincoln being on the program because he was president, more than for any other reason.

Everett spent days in preparation for this event. Lincoln wrote his address on wrapping paper while he was on his way to Gettysburg. Everett's address was greeted with unanimous applause; when Lincoln finished his short sermon there was not a sound from the thousands of visitors at the battlefield that day.

Today Lincoln's Gettysburg address is regarded as one of the masterpieces of the English language. There is scarcely an adult who has not at least read it. But it would be hard to find one who is familiar with the address of Mr. Everett.

It was just fifty years ago Wednesday afternoon at 4 o'clock that there leaped from the soul of this great American this lofty sentiment, which in form and thought constitutes one of our greatest literary and moral treasures.

In Illinois, the state superintendent of public instruction, Francis G. Blair, has recommended that all school children above the sixth grade memorize this address. All of the schools have adopted the recommendation.

SPELLING BEE WAS GREAT.

Pickering Turned Out Well and Furnished Over 100 Spellers for the Contest—O. G. Null Champion.

The spelling contest given at the school house Friday evening by the Mothers' club of Pickering was well attended. Ten cents admission was charged for all over 12 years old, and the proceeds amounted to $16.

Mr. and Mrs. O. G. Null stood their ground until the last, and so long did they stand together in spelling that quiet wagers were being made as to half—at spelling we mean, of course—when Mrs. Null tripped on the word "calendar," but was ready to correct herself almost instantly. This made Mr. Null the champion speller of Pickering.

The captains were Charles Swinford and O. G. Null, and they "chose up" in the good old-fashioned way.

Mr. Swinford proved himself a good speller until the word "sonata" was presented. Then a terrible, thundering discord broke over his mind as sudden and awful as the battle of Waterloo, and down he went on the beautiful word, which in itself is suggestive of a great concord of sweet sounds.

The pronouncers were Miss Manly of the Mowrey school and Miss Rachel Watson.

A good social time followed and pie and coffe were served by the Mothers' Circle. Another spelling contest is being talked of.

A SPECIAL SERVICE

DR. FOOTE TO TALK TO FATHERS AND SONS SUNDAY.

TO BE IN AFTERNOON

Regular Services at Other Churches—Efforts Being Made for Large Sunday School Classes.

Last night Dr. U. G. Foote of Louisville, Ky., preached on "The Facts of Conversion." All the seats in the auditorium were occupied except those directly in front. The pastor, Rev. J. D. Randolph, requested the members of the church and others who arrive early to take the front seats so those coming in later might be seated with the least possible disturbance to the service. A special service for fathers and sons was announced to be held at 3 o'clock Sunday afternoon. Where possible fathers were asked to come in company with their sons, but any son or any father is invited whether coming together or not. All other services will be held at the usual hours. Dr. Foote will preach.

The sermon on "The Facts of Conversion" was in part as follows::

"Whatever may be our theological views, the fact that man is wrong is a stubborn truth. We are all wrong and must be righted about. There are men who believe they are going to the heavenly land who have neither repented of past sins nor believed on the Savior for salvation. Conversion means giving up sin. 'Let him that stole steal no more.' It means taking up a new line of conduct. Conversion means getting a start for righteousness in the same sence that a child is getting a start to be a man. A 'babe in Christ' is not expected to be a grown up man in experience. A child is not expected to read Gibbon's Rome or Macbeth. A child cannot understand higher mathematics. Like the engine we accumulate steam as we go. Don't wait until you get enough to run through, but start with daily bread, and after awhile you will have enough to divide with others."

Kansas Has Nothing on Maryville, as There Are Any Number of Dandelions in Bloom.

A dispatch from Salina, Kan., says that the warm, balmy weather that prevails in central Kansas is unprecedented for the latter part of November, and farmers report that fruit trees are blooming and dandelions are in flower.

That's nothing. Dandelions are growing and the grass is growing just like it was spring in Maryville. The maximum temperature Friday was 68.

MAITLAND MEN HAVE GAS WELL.

D. A. Gelvin and E. Rowlett Have Struck a Rich Find on Their Land in Oklahoma.

The following is from this week's Maitland Herald:

D. A. Gelvin and E. Rowlett returned Tuesday from Nowata, Okla., where they had gone to see the "coming in" of the first well on a 120-acre tract of land which they had recently leased on the oil fields of that section. Their land joins a 120-acre tract owned by John F. Shipley of Mound City and M. C. Brumbaugh, and with these men and Uncle George Wagner, making 370 acres under the control of these five men, and it is said by experts from the eastern fields who were there the first of the week that these holdings are in the richest part of the northern Oklahoma fields, which are a combination of gas and oil.

The Gelvin-Rowlett well is producing gas and they were on the ground at the climax, when the gas came rushing out of the 400-foot hole with a roar that was almost deafening. We are told that Mr. Rowlett was so elated over the remarkable success of the well that he danced the tango and the turkey trot at the same time.

Mr. Shipley is managing the development of these three tracts and the drills are now working night and day. He was in town a few hours today consulting with the other interested parties. He was called home from Oklahoma on account of the death of his brother-in-law, Charles Arnold, whose funeral was held Wednesday.

An enormous amount of wealth is certain to be derived from these holdings, and we hope a little later to be able to give more definite information.

Corn Husking Bee.

Talk about your "husking bees," there was one in the Skidmore neighborhood Wednesday. A number of the citizens of the town and community, headed by Jim Newton, Paddy Iddings, Henry Barrett and John Trapp, met in W. S. Hickman's field, one mile south of Skidmore, and shucked and cribbed about 750 bushels of corn, measured at a low estimate 731. Mr. Hickman has been quite poorly for some time and his friends thought they would be doing a "neighborly" act by pitching in and helping him get his corn out before it snows, and eleven teams and thirty men, armed with husking pegs, marched through about thirty acres and succeeded in pulling it in the dry. Those present were Jim Newton, Henry Barrett, Robert Barrett, John Trapp, Jim Parrish, Jr., Lewis Wood, Robert Merritt, Jr., Harry Worl, Frank Jones, Lannie Horn, Claude Shull, Jake Dawson, Clyde Mitchell, Myron Newton, Dempsey Hickerson, Floyd Shell, Carl Stevenson, Marvin Hitchcock, Harley Hitchcock, Chancy Littler, Willard Money, Fred Hurst, Dan Baker, Aaron Linville, Howard Manning, Paddy Iddings, J. R. Gibbs, J. E. Strickler, W. M. Howden and Arch Hitchcock—Skidmore New Era.

HATS OFF LADIES!

ED WELLS STARTS MOTION FOR NEW RULING.

BACK ROW IN DEMAND

Order at Presbyterian Church Has Caused a Drop in Temperature in That Vicinity.

According to the best advices weather conditions in certain sections of the city will be unsettled during the next twenty-four hours. A storm area has been discovered forming in the neighborhood of the Presbyterian church, and it is certain that there will be a period of freezing temperature for a lot of men folks.

The cause of this somewhat violent disturbance may be traced to the following innocent announcement to be found in this week's church bulletin: "Beginning with next Sunday's morning service, the ladies will be expected to remove their hats." There is more to the announcement but this is sufficient. The Men's club is charged with the responsibility, and the number of those who will admit that they attended the last meeting of the club is growing less every hour.

Right here at the height of the millinery season and every lady is expected to hold her new hat in her hands or stick it under the seat. Just think of it. And the married men are laying it all on Ed Wells, a popular bachelor member, who is said to have made the motion that brought it all about and carried it unanimously because the husbands were afraid to vote either way. Anyway he is better off than the husbands because while he has been consigned to eternal bachelorhood on account of this, he has no wife to lose or to settle with.

There is a kindly suggestion in the announcement that "the back row of the pews can be used by ladies who do not feel that they can dispense with their millinery." This has caused a rush of advance orders for back seats, and the men who are wise will quietly take their places down in front, where a mourners' bench will be provided.

THE CURRENCY SITUATION.

The situation with reference to currency legislation is rapidly clearing up. The banking and currency committee of the senate has decided to bring its labors to a close and report the house bill to the senate with two distinct sets of amendments. One is backed by six of the seven Democrats on the committee and the other by the Five Republicans and Senator Hitchcock of Nebraska.

The amendments recommended by the Democratic members, it is said, are mostly acceptable to the administration, and the differences of opinion in the committee have been adjusted agreeably. This will be pleasing to all good Democrats, though disappointing to Republican politicians and those who sought to turn the efforts of certain Democratic senators to improve the bill to their discredit.

The bill involves radical changes in the present currency system. It proposes a number of new departures, all intended to prevent in future great evils which have fallen upon our country in the past and to secure certain relief from evils such as we have had in the past and that may again return.

It is a bill of vast importance to the country and one that is expected to be of vast benefit, but the more important a bill the more reason for care and deliberation in its construction and passage. Senator Reed has drawn upon himself some severe criticism for seeking light and urging some amendments which he thought advisable. In a recent speech in the senate he said:

"In dealing with questions of that kind men must understand that he who leaps without first ascertaining where he may alight is not proceeding with proper regard for the gravity of the matters involved. So this committee has been endeavoring to gain light and to arrive, if possible, at a common agreement."

This common agreement, it seems, has been reached so far as the six Democratic members are concerned.

In endeavoring to throw the searchlight upon the bill and expose its defects, if any, and remedy them by amendment, Senator Reed was simply doing his duty as a member of the committee to which it was referred for examination and report. To have avoided or shirked this duty would have been to have shirked the obligations resting upon a United States senator.

But, when he had secured such amendments as he could and was outvoted on others, he showed himself the good Democrat that he has always been by deferring to the judgment of his fellow members on the committee and falling in line and helping to make a unanimous report to the senate on the part of the six members who stood nearest together. There will be many divergent views held by individuals upon different features of the bill when it comes up for discussion on the floor of the senate, but the friends of the bill, which will include all the Democrats, with the possible exception of Senator Hitchcock, and several Republicans, will rally to its support and pass it.

It will probably not have suffered by the rigid treatment it has undergone, and when it becomes a law the people will be glad to know that it has stood the acid test and that it was not put through by dark lantern methods such as have merited the loss of confidence in former administrations.

Mrs. W. A. Rickenbrode returned Thursday night from a several days' visit with relatives in Kansas City and Olathe, Kan.

The decorations were principally in evergreens and suggestive of Thanksgiving. Punch was served in the dining room before the games began, Miss Wamsley presiding, assisted by Miss Louise Rowlett. The punch bowl was in a pretty setting of red poppies and evergreens. The hostesses were very pretty in gowns of pink. FEDERATION FAVORS PEACE

Refuses, However, to Take Stand Against Armed Intervention.

GOMPERS DENOUNCES HUERTA

Points Out Importance of Maintaining Monroe Doctrine—John Mitchell Appeals to Convention Not to Hamper President Wilson.

Seattle, Nov. 22.—The American Federation of Labor refused to adopt a resolution condemning armed intervention in Mexico, on the ground that such intervention might be justifiable and desirable.

The convention unanimously adopted the following resolution:

"The American Federation of Labor condemns attempts being made by American and foreign corporations and certain jingo newspapers to force armed intervention by the United States government in Mexico and urges upon the president of the United States the continuance of a policy looking to the peaceful adjustment of the conflict among the Mexican people, and that the president and secretary of the American Federation of Labor be instructed to transmit the position of the federation upon that matter to the president of the United States."

John Mitchell took the floor and begged the convention not to hamper President Wilson. While he was a peace advocate, he believed there were conditions that sometimes justified war within a nation and between nations.

Mr. Gompers eulogized President Madero, denounced General Huerta as an assassin and pointed out the importance of maintaining the Monroe doctrine.

Position of Huerta.

Mexico City, Nov. 22.—Most of the happenings here continue to indicate that Huerta is unalterably determined not to accede to the demands of the United States government for his elimination as president of Mexico. However, there is some basis for the belief that he will given in, but in such a manner as to leave the impression of his own free will, defying Washington to the last.

On Way to Havana.

Vera Cruz, Nov. 22.—Evaristo and Daniel Madero and the other members of their party, who took refuge in the American consulate and were placed on board the United States battleship Rhode Island, were transferred to the scout cruiser Chester, which sailed under orders to proceed to Havana.

M'GUIRE MURPHY'S PARTNER

Agent for Contractors Associated With Chief's Nephew.

New York, Nov. 22.—George H. McGuire, the Syracuse bonding agent for state highway and barge canal contractors, is a partner of Charles F. Murphy, Jr., nephew of the leader of Tammany Hall. He so testified at the "John Doe inquiry" into highway graft and said he had an agreement with Murphy to divide all the bonding business they obtained.

McGuire confessed to having attempted to force at least three asphalt companies to make $5,000 contributions to the state Democratic committee in return for securing them contracts from the state highway department. McGuire was to receive a commission of 1 cent a gallon for all the asphalt the companies sold to the state or to contractors, he said, and the companies were to charge the contributions against the commission.

Chicago, Nov. 22.—On the information that 85 per cent of the 6,000 students of the Imperial university, Tokyo, Japan, have relinquished paganism only to become agnostics, alumni of the divinity school of the University of Chicago announced they will rebuild the Central Baptist tabernacle at Tokyo, destroyed by fire last spring, to check the tide of agnosticism.

LAXATIVE FOR OLD PEOPLE—"CASCARETS"

Salts, Calomel and Pills Act on Liver and Bowels Like Pepper Acts in Nostrils—Danger!

Get a 10-cent box now.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets, and they cost only 10 cents per box at any drug store. They work while you sleep.—Advertisement.

DRIVES AUTO INTO CROWD ON STREET

Four Persons Injured, One Fatally, at Omaha.

Omaha, Nov. 22.—Speeding across Farnam on Fifteenth street at an hour when hundreds of persons were waiting for street cars to take them home after their day's work, James Svoytek, chauffeur for the Omaha Taxi company, lost control of his car when he struck a messenger boy and crashed into a crowd, seriously injuring three other persons and knocking down several more.

The injured: Miss Mollie Falctman of Council Bluffs; in St. Joseph's hospital and will probably die; jaw broken in three places, skull fractured, painful lacerations and internal injuries.

EGGS TOO COSTLY FOR GIFTS

Burleson Says No Scrupulous Official Will Accept Such Valuable Presents.

Washington, Nov. 22.—Postmaster General Burleson has reached the conclusion that no scrupulous official can accept gifts of eggs at their present soaring prices.

For months he has been receiving presents of various kinds of edibles which the donors wish to demonstrate may be transported successfully by the new parcel post. Recently he received a box of eggs from Michigan.

"Send 'em back," Mr. Burleson ordered. "To accept an egg at its present market price without payment therefor is immoral and a violation of the law prohibiting a public officer from accepting anything of value outside of his salary. No scrupulous official could tolerate such a suggestion."

Search for Body of Man in Sewer.

Atlantic City, Nov. 22.—A hundred men searched for the body of Edgely Bowers, twenty-one years old, who was drawn into the covered drainage canal that parallels the western side of the city from the inlet to Chelsea. Long after he was drawn into the big conduit Bowers' cries were heard and men in boats risked their lives by entering the canal in the hope of reaching him alive. After an all-night search hope was given up that he would be saved. Bowers fell overboard at the intake of the canal and was swept into it by the rising tide.

Mail Cars Kill Many Pedestrians.

New York, Nov. 22.—The right of the government to operate its mail trucks in city streets regardless of speed restrictions that may be prescribed by the board of aldermen, was defended by Joseph Stewart, second assistant postmaster general, before the aldermanic committee appointed to consider an ordinance withdrawing the mail trucks from the class of vehicles now exempt from speed control. Fourteen persons have been killed here this year by mail carrying automobiles.

THREE OFFICERS ARE SHOT DOWN

Mexican Slayer of Countryman Kills Trio Resisting Arrest.

NOW HIDING IN UTAH HILLS.

Chief of Police Grant of Bingham and Two Deputy Sheriffs Slain Pursuing Murderer, Whom They Track in the Snow.

Salt Lake, Nov. 22.—Chief of Police Grant of Bingham and Deputy Sheriffs Otto Whitbeck and Nephi Jensen were killed in a battle with Ralph Lopez a Mexican, near Saratoga Springs, Utah. Lopez is wanted in Bingham for the murder of a countryman there.

After slaying the three officers, Lopez fled to the hills, where he is being searched for, with the prospects of another fight if he is overtaken.

The murder for which Lopez is wanted was committed near the Highland Boy mine at Bingham, when he shot and killed John Valdez.

Immediately after the murder Lopez, armed with a rifle, left the mining camp, with a posse following a short time later. The posse was able to track him in the snow and the fugitive was located hiding in a clump of bushes near Saratoga Springs, about forty miles south of this city.

Deputy Sheriff Whitbeck called upon him to surrender and was arrested by a bullet, which killed him. Lopez then turned his gun on Chief Grant, killing him. Deputy Jensen, the third member of the posse, received a wound while trying to defend his comrades, from which he died soon after aid reached him.

Following the shooting of the officers Lopez resumed his flight. Several automobile loads of police officers and deputy sheriffs left Salt Lake to take up the hunt for Lopez.

NORRIS INTRODUCES BILL

Wants Poor Straphanger Given Ride for Half Fare.

Washington, Nov. 22.—"Straphangers" in street cars in the District of Columbia are cheering Senator Norris of Nebraska, who introduced a bill in the senate providing that any one entering a car and not being able to find a seat should be given a rebate check. Two of the checks, in the terms of the bill, would be legal tender for one fare.

"I've hung on straps myself and I know what it is," said Senator Norris, in declaring his intention of forcing his proposed measure. "It is a well known fact that the street car corporation makes three times as much on the man who stands in the aisle as on the woman who occupies a seat. That being so, it is only fair that the person who stands, be it man or woman, should be carried for at least one-half the price of the person accommodated with a seat. The proposed law imposes no penalty; it is pure justice."

The senator believes that if the law should be enacted the street car companies would be more careful to see that seats were provided for all patrons.

SAYS MATRON BEST TEACHER

Present Educational System Puts Premium on Celibacy.

Kansas City, Nov. 22.—Matrons make the best teachers for the young, according to Professor Earl Barnes, who lectured before the Missouri university extension center here.

"The present day educational system puts a premium on the greatest sin in the world, celibacy," said Professor Barnes.

"Particularly is it wrong to insist that only unmarried women be allowed to teach in public schools.

"What better teachers could be found for children than the cultured married woman coming from a congenial home into the school room?

"No greater insult ever was given to American womanhood than the act of the New York school board of education in asking the resignation of a married teacher, who had requested leave of absence that she might become a mother."

Descendant of John Alden Dead.

Kansas City, Nov. 22.—Judge Henry Leroy Alden of the Wyandotte county district court, a lineal descendant of John and Priscilla Alden, whose romance was sung by Longfellow in the "Courtship of Miles Standish," died at the age of sixty-six years. Judge Alden represented the eighth generation of the Alden family in America.

St. Paul, Nov. 22.—A scandal involving former officials of the St. Paul police department is threatened. A woman prominent in the underworld is alleged to have confessed to Judge Hanft that she had paid intermediaries $1,000 for "protection." The woman was taken before the grand jury.

Seer's Prediction Causes Suicide.

Kansas City, Nov. 22.—The prediction of a fortune teller that the young man she was soon to marry would drink and be unfaithful, making her married life unhappy, caused Agnes Fairbanks, twenty years old, to commit suicide at the home of her fiance in Kansas City, Kan.

BRADSTREET'S TRADE REVIEW

Mixed Characteristics Presented in Week's News.

New York, Nov. 22.—Bradstreet's says: Mixed characteristics are presented in the week's trade news. Thus unseasonably mild weather has hampered retail trade over a wide area, conservatism as regards future buying is in evidence, the iron and steel trades continue to reflect a slowing down movement, money for time accommodation is rather tight and collections seem to be harder to make.

On the other hand, activity in holiday trade has tended to close up some of the gaps caused by mild weather, winter wheat is in fine shape over a record area, railway traffic is being conducted with relative ease, farmers appear to be prosperous and country banks report a rather heavy demand for loans.

Failures for the week were 340.

Wheat exports for the week aggregate 6,149,023 bushels.

Sea Monsters.

That "thresher shark" of fabulous dimensions just caught on the south coast of England is fast becoming a formidable rival of the sea serpent and the big gooseberry. He is fairly common during summer around Cornwall, where he does great damage to pilchard and mackerel nets, in which he completely finds himself, like a caterpillar in his chrysalis. The thresher shark is also called the sea fox, from the remarkable tail, which he uses to frighten shoals of fish, and so make them more easily caught. There are sailors' yarns that this whiplike tail is sometimes used for flogging whales to death. But the real persecutor of the whale is the gladiator dolphin or sword grampus (Delphinus gladiator), a very carnivorous fellow, who kills and eats whales, seals and even his brother porpoises.

BROOKLYN TABERNACLE BIBLE STUDY ON

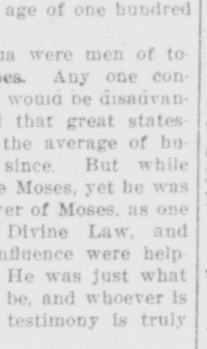
ISRAEL UNDER A NEW LEADER.

Joshua 1:1-9—Nov. 23.

"Be strong and of a good courage."—Verse 9.

ISRAEL spent thirty days in mourning for their great leader Moses, yet with one accord accepted Joshua as their new leader by Divine appointment through Moses. Like other Bible heroes, Joshua was renowned for his faith and his loyalty to God. At the time of taking Moses' place he was in his eighty-third year, yet full of vigor and evidently the best qualified for the position.

The fact that Moses was vigorous at one hundred and twenty, and Joshua at eighty-three, speaks loudly to us in confirmation of the Bible teaching that Adam was created perfect; and that the entire race has since fallen into sin and death—sharing Adam's penalty, "Dying, thou shalt die." The intelligence of these men, as well as their vigor, quite contradict the Evolution theory; for this very Joshua had been one of the slaves in Egypt.



Evolution Theory Contradicted.

Israel's Real Leader—God.

Not for a moment are we to lose sight of the fact that God had adopted the nation of Israel and had entered into a special Covenant with them; and that, therefore, He was their real Leader, Moses, Joshua and others being merely His representatives. We have already referred to the reasons for the adoption of Israel by the Almighty.

The New Leader's Name.

Joshua's name was originally Hoshea, the same as that of the Prophet Hosea, signifying salvation. To this was prefixed (Numbers 13:16) *Je*, an abbreviation representing the word Jehovah. Thus the name became Jehoshua, signifying Jehovah's salvation. This was shortened to Joshua. The Greek form of this word is *Jesous*—Jesus.

For twenty-seven years Joshua was the leader of Israel, faithful to God and to the people. He not only led the people through Jordan and directed in the conquest of Canaan, but divided the land amongst the tribes and governed the people with great acceptance, dying at the age of one hundred and ten years.

Moses and Joshua were men of totally different types. Any one contrasted with Moses would be disadvantaged, so high did that great statesman tower above the average of humanity, then or since. But while Joshua could not be Moses, yet he was faithful as a follower of Moses, as one who obeyed the Divine Law, and whose faith and influence were helpful to the people. He was just what God wished him to be, and whoever is worthy of such a testimony is truly great.

The Land of Promise.

That Joshua and Israel should take forcible possession of Canaan is called in question by some. They ask, By what right might one branch of the human family destroy another and seize their land? Where is the justice of such a course?

There is but one answer to this query; and, rightly seen, it is satisfactory. The Lord declares that the earth is His, that He gave it to the children of men, as represented by Adam (Psalm 115:16.) But the gift was conditioned upon obedience and loyalty—disobedience, disloyalty, being punishable by death. Adam incurred this penalty; and his children, under the laws of heredity, shared it with him, because "born in sin and shapen in iniquity." Thus all human right in the earth was abrogated by the death sentence upon the sinner.

God purposed in Himself the recovery of Adam and his family from the curse of death—through Messiah, through His death and by the power of His Messianic Kingdom, not yet established. In preparation for these blessings to come, God laid hold upon Israel and made a Covenant with them. Although they could not fulfill the terms of the Covenant and obtain God's choicest blessing, nevertheless they were greatly blessed by their Law Covenant, and many of them were prepared by it for cooperation with Messiah in His Kingdom in due time.

False Theories of the Dark Ages.

In carrying out this arrangement, God gave Israel Palestine, but explained that this gift was because of His favor toward them in pursuit of His own great plans, previously outlined to Abraham. He further explained that the Canaanites were not making progress, and that their continuance would be neither for their good nor for His glory—as it was with the Sodomites.—Ezekiel 16:49, 50.

We should remember that the Bible hell, to which the slaughtered Canaanites went, is not the hell of torment pictured in the creeds. Their destruction by Israel sent them to Sheol, Hades, the tomb. There they sleep with their forefathers, waiting for the glorious resurrection Morning, when Messiah's Kingdom will eventually bring back every man in his own order. From this viewpoint, the giving of Palestine to Israel was not injustice, but wisdom.
